

OPEN POSITION

APPLY AS MEMBER OF THE IT & DATA INSIGHTS TEAM

Since its founding in 1987, oikos St. Gallen has led many initiatives for positive change at the University of St. Gallen, engaging in both the business and academic sectors. oikos Solar is dedicated to promoting solar energy across Switzerland, working closely with a vast network across politics and industry to raise funds and establish photovoltaic installations. The project is structured into six key departments: Finance, Business Development, Solar Panel Management, Marketing, Legal, and IT & Data Insights. As a member of the IT & Data Insights team, your role will involve managing the organization's technical infrastructure, contributing to key projects such as data analysis and modeling to identify and evaluate solar projects, enabling data-driven decision-making, managing website and database, and optimizing processes on platforms like Monday.com. This position offers a unique opportunity to combine IT expertise with sustainability impact.

YOUR RESPONSIBILITIES AS TEAM MEMBER

- Data handling & analysis for solar and energy data; database management
- Developing tools for solar project evaluation; data-based decision-making
- Website setup & management, creating UI, search engine optimization
- Internal process optimization & general IT support

WHAT DO YOU BRING

- Plenty motivation!
- Preferably enrolled in Bachelor/Master of Computer Science or the Data Science Fundamentals program.
- A solid foundation in programming, database management and/or data analysis, experience in Web Design.
- Optional Knowledge in Tools such as AWS and SQL

WHAT DO WE OFFER?

- Experience in data handling, modelling and web design
- Various networking, professional development and fun community events
- Teamwork with committed students in the field of sustainability and business
- A meaningful and challenging job alongside your studies
